

It is important to note that the Governor's Revised Proposed Budget (October 16) is not the same as the Governor's Revised Executive Order Resource Allocation Plan, which the State is currently operating under due to the lack of a state budget. Additionally, the Revised Executive Order Resource Allocation has not been included in this analysis as it is meant to be a temporary funding plan, rather than a permanent solution, and it does not statutorily changes Connecticut's school finance system.

⁴ The Public Investment Communities (PIC) index is calculated annually by the Office of Policy and Management; it measures the relative wealth and need of Connecticut's towns by ranking them in descending order by their cumulative point allocations based on: per capita income; adjusted equalized net grand list per capita; equalized mill rate; per capita aid to children receiving Temporary Family Assistance benefits; and unemployment rate. More information on the PIC index, including the cumulative points allocation for each town, can be found at <http://www.ct.gov/opm/cwp/view.asp?a=2985&q=383122>.
